ANCHORS

HELIX EARTH ANCHORS

For tying supports to end post anchors, Made in USA

3/4" x 48" x 6" Helix
 1/2" x 30" x 4" Helix

Install Adaptor for PTO Auger Unit
 -A "must have" for anchor installation,
 adaptor attaches to your PTO auger
 to easily install your helix anchors

DOUBLE HELIX EARTH ANCHOR

-Developed for FLTS!! Strongest hold for
 the most difficult soils! Made in the USA!

7/8" x 60" x 4" & 6" Helixes *V.D.A.
 3/4" x 48" x 4" & 6" Helixes *V.D.A.

- Made in the USA- welded eye, better metals,
higher standard of quality than imports
- Built for Finger Lakes Trellis Supply,
- Applications for hail net systems, green
 houses, hoop houses and anchoring in
 difficult soils
- Approved by the state of Florida for Hurricane
 anchoring - 6,000lb. pull test!
- Non-stocked item, made to order

GRIPPLE ANCHORS & GPAK CABLES

- Gripple Anchor 3
- Gripple Anchor 4
- Anchor Install Driver
- GPAK3-15' 3mm 880lb
- GPAK4-16.5' 4mm 1320lb

Time and labor saving, tested
 globally in a variety of soil types.
 Universal end for both wooden and
 metal posts. Heavy galvanization
 for maximum corrosion resistance.
 Easily tensioned/re-tensioned with
 Gripple Torq Tool or Contractor
 Tool. Pull test data sheet for
 Anchor 3 available, rates between
 1,400 & 1,900lbs, depending on
 soil type. Anchor 4 has larger
 anchor and cable for more strength

POSTS

PRESSURE TREATED WOOD POSTS

Looking for a few posts or a truckload? We're your post specialists.
 We pride ourselves in selling quality, long lasting posts. If you're
 looking for the cheapest post you can find, you won't find it here.
 We sell posts we can stand behind, mainly Southern Yellow Pine
 and Lodge Pole posts. We have found that these are the best
 pressure treated posts that last the longest in our region. We're
 your source for all apple, grape and hops applications!
 Not sure what you need? Send us a sketch or some details, our
 staff can help you determine what your needs are to achieve a
 long lasting trellis system!

MANY SIZES AVAILABLE & IN STOCK!

Diameters range from 2.5" - 6/7"

Lengths up to 22ft

HAVE THEM SHIPPED DIRECT!

TRUCKLOAD PRICING AVAILABLE UPON REQUEST!

LODGE POLE—Slow growth, tall & straight. Random limbs, less
 knots makes for stronger posts. Best availability of 10' &
 12' .40CCA treated posts

SOUTHERN YELLOW PINE—Strongest, heaviest and proven to
 be the longest lasting post available! .40CCA or .60CCA marine
 grade available!

ORGANIC CEDAR- **Non-treated. Call for availability or VDA

H-BRACE PINS

FAST EASY INSTALLATION
 5" Pins & 10" Pins

- Environmentally Friendly Carbon Footprint

Various styles and sizes available for any of your trellising needs. Call us today!

HIGH TENSILE WIRE

Looking for a **quality** H/T wire? You've come to the right place. FLTS does not sell poor quality, low priced, Chinese export wire. You work hard, so do we. We want you to get the best product available, so you're not spending time & money doing it again.

BETTER— 12.5ga 200ksi Class III 4,000'

-Thread Laid Coil will lie flat when unpackaged on a Spinning Jenny and will not spring, or spiral while unrolling during pay-out. The process also helps to prevent the wire from knifing in and tangling.

BEST— 12.5ga 200ksi Class III 4,000' USA

-Torsion Free & Thread laid wire has the same benefits as a Thread Laid Coil, an additional special process, removes "recoiling" effect. Safer and easier to work with. Saves time and money!

-Volume Discounts Apply! Wire prices fluctuate due to market conditions. Call for quote.

SOFT WIRE

1,000' and 2,600' reels available
12.5, 14, 16, and 19ga available

H/T WIRE TIGHTENERS

In-Line Kiwi USA Winder w/ Spring

-Safer to install with permanent spring held latch

In-Line Winder Tool

-Specialty tool for in-line Kiwi winders

On-Line EZ Daisy Winder

-Installed without having to cut the wire

On-Line Winder Tensioner

-Specialty tool for on-line winders

DURA-LINE
Monofilament Agricultural Support

Dura-Line **Monofilament** (Polyamide) is ideal for trellising requirements in vineyards and fruit orchards. Other applications for Dura-line include all fencing and protective netting installations. Dura-line is an available alternative to High Tensile wire. Dura-Line offers economical and long-lasting service.

- High-tensile polyamide (PA6)
- Low-elongation
- UV and weather-stabilized

Product	mm/gauge	Breaking force	length
Dura-Line	2.5/12.5	750lbs	6700ft
Dura-Line	3.0/11.0	900lbs	4850ft
Dura-Line	4.0/8.0	1200lbs	2800ft

**Volume discounts available , call for discounts!

Gripple 200 Medium BULK Jar

Gripple TORQ Tool

This tool not only tensions wire but regulates the load applied too, delivering consistent results every time, maximizing the life of the wire.

Gripple Cable Cutter

Heavy Duty by-pass cutters for clean cuts up to 4.00mm wire.

Gripple HT Wire Cutter- Blue handle great heavy duty option for cutting HT wire.

Gripple Tool Bag

Canvas work bag, specially designed for easy access to your Gripples and tools.

Gripple GPAK (aka) Anchor Post Kits

GPAK3 15' 3mm 880lb
 GPAK4 16.5' 4mm 1320lb

Gripple GPAK (aka) 'H' Brace Kits for 8' H/T

GPAK4 20' 4mm 1320lb
 GPAK4 16.5' 4mm 1320lb
 GPAK3 15' 3MM 880LBS

Gripple Twister

Quick and easy way to keep loose cabling contained neatly to the wire

Gripple "T" Clip

- Forget knotting or stapling at the end posts
- Use a Gripple T-Clip to start or end fencing
- No need to cut excess wire
- Works on 14-10ga.

Decades Of Experience Professionally Building Fence And Trellis Systems For Innovative Growers; A Lifetime Of Integrity.

- Todd R. Smith

STOP IN AND VISIT US!

In field applications

The key to capitalizing on the whole Grippler system lies in the TORQ Tool. This gear driven tool provides a 6:1 mechanical advantage resulting in maximum tension with a minimal effort!

Pictured right, GP Mediums and Grippler Twisters on a deer fence application. Used together, these allow for even tension and clean wire ends.

Pictured right, Grippler "T" Clips can be used for a variety of applications. Shown here is an end post section of a deer fence with the "T" Clip used for a starting point.

Shown on the left is an example of a GP Large on an end post anchor on a young vineyard.

In the center is an example of a GPAK in an orchard

On the right is a close-up shot of the Grippler Plus and a twister tying off a loose wire.

On the left is the TORQ Tool in action. Todd is demonstrating the use of 'the 60 degree angle, equilateral triangle' The most effective anchoring system.

In the center and on the right are examples of Gripplers being used for tensioning trellis wires in both orchard and vineyard applications

OCEAN ORGANICS SEAWEED EXTRACT

Seaweed Extract Program Reduces Bitterpit Improves Red Fruit Color Increases BRIX

The most complete offering of high-performance, environmentally sustainable plant products available. First and foremost, all our liquids contain a generous portion of seaweed extract, which has been shown to:

- Improve Stress Tolerance to:
 - High temperatures (heat)
 - Drought
 - Saline conditions
 - Diseases
- Delay Plant Decline
- Improve Plant Health And Vigor
 - Increase Cell Wall Strength
 - Increase Root Mass
 - Increase Chlorophyll Content
 - Improve Photosynthetic Efficiency
 - Increase Antioxidant Levels

Sysstem-Ready™ is a foliar fertility combining zinc and manganese phosphite.

SysstemReady™ is designed for early season use in a wide variety of row crops to meet peak nutrient demand timing for zinc and manganese. Proper nutrient balance is critical to maintaining overall plant health, proper physiologically development and maximizing yield. Applying Sysstem-Ready™ early season on conventional and/or glyphosate tolerant crops will prevent and/or correct micronutrient deficiencies ensuring that maximum yield.

Bitter pit, a disorder most commonly linked to calcium deficiencies in the fruit, is one of those difficulties. And it can happen to anybody.

Sysstem®-Cal, is a calcium and copper foliar fertilizer designed to improve fruit quality and firmness. Soil available calcium does not move easily within plants because it translocates mainly within the transpirational system – moving generally to the leaves – where it gets bound in cell wall structures. Sysstem-Cal is specifically designed for foliar use to address this issue and supply calcium directly to the fruit. Sysstem-Cal links calcium to a unique trans locating mobility-ion that greatly improves calcium uptake and mobility.

**FINGER
LAKES
TRELLIS
SUPPLY IS
GROWER
DRIVEN**

KDL®

*Don't Let Frost Destroy
Your Crops!*

Applying KDL immediately before an expected frost can help increase potassium and sugar levels within the plant and temporarily put the plant into a more "winterized" or hardened mode, where its tissue is better able to survive cold temperatures. Every frost event is different and KDL may not be effective in all conditions. KDL is designed to **enhance plant tolerance to frost**, but is not designed to protect against severe or extended frost or freeze events.

Wine grape growers in the USA, Australia and South Africa successfully use KDL, beginning at veraison, to encourage uniform berry maturation and to increase color density. Due to climate conditions and other reasons, many growers experience a slow down or in some cases a stoppage of maturation. KDL can alleviate this problem while promoting uniform ripening and maturation, which enhances quality and minimizes harvesting costs.

The data shows that KDL treated grapes had higher levels of important color components like the anthocyanins and lower levels of the bitter flavor component, caftaric acid, as well as **higher brix**. But even more importantly, the juice data shows that KDL did NOT negatively affect either the pH or potassium levels

Good Fences Make Good Neighbors.

KEEP YOUR CROPS SAFE WITH US!
BLACK POLY DEER FENCE & ACCESSORIES

'VIRTUALLY INVISIBLE' BLACK POLY DEER FENCE

For year-round protection against deer and other large animals. Less costly than conventional heavy metal deer fencing while exhibiting strengths far superior than most commonly sold black polypropylene deer fencing found on the market today. Designed for easy landscaper or homeowner installation around your entire property, small beds, gardens, orchards or even cut and staked around individual trees. Made from corrosion proof materials, this fence is carbon black with added UV protection allowing for maximum flex, strength and durability. Easily attaches to angle steel line posts or heavy duty round fence posts while blending into your surrounding property for invisibility and an aesthetically pleasing design.

- Strong and versatile
- 1.77" x 1.96" Mesh— cheaper & stronger than the competition
- light & easy to install, reusable
- UV stabilized poly propylene

WILDLIFE CONTROL

DEER SOAP

Deer Soap Bars are formulated to replace the discontinued Cashmere Bouquet soap. Made for orchard use, the strong scented tallowate base makes deer uncomfortable. Biodegradable & environmentally friendly! Made in the USA!

Whiff Bars 500/bag

BLUE-X® Treeshelters are designed to protect seedlings and accelerate early growth. **BLUE-X®** Treeshelters are placed around seeds, seedlings or transplants at planting time, or retro-fitted to existing seedlings.

BLUE-X® Treeshelters create a beneficial microclimate inside the shelter for each seedling, with:

- Increased humidity
- Higher CO2 levels
- Reduced drying and mechanical damage caused by wind
- Reduction of harmful UV light
- Beneficial blue light effect

; FCK @? 95 DFC°

SHELLT® grow tubes protect young vines and orchard trees, improve their WELFARE, and accelerate their GROWTH, saving time and money. Ready to use, and easy to install and remove with two simple clicks, no tools or ties needed. It takes only five seconds to install, and five seconds to remove, saving time and money. Easy to remove, with no tools and no damage to the plant, and to store for the next use. Made of robust 100% recyclable plastic, with UV inhibitors for many years of use. For organic and traditional methods. Protects from animals, equipment, sun, wind, and undesired chemicals. All **SHELLT®** grow-tubes store flat, saving warehouse space in between uses.

They are all also easily stackable to make it longer and/or wider. **SHELLT®** grow tubes are being used with success on grape vines and orchard trees, such as almond, walnut, avocado, pistachio, kiwi, goji, blueberries.

TENAX POLY DEER FENCES

When you need a strong deer fence, think **C-Flex**. This black utility fence can be used as a durable deer fence, perimeter fence, landfill fence, or debris fence. This long-lasting mesh has endless applications! Features 1.77" x 1.97" mesh openings.

- Lightweight
- Easy to carry
- UV stabilized and long lasting
- Won't rust, rot or corrode
- Strong
- Reusable
- Recyclable

C-Flex P is recommended for areas that experience heavy deer traffic. Extremely durable, this Tenax utility net can also be used as a perimeter fence. This versatile, long-lasting fence has endless applications.

ALL POLY DEER FENCES COME IN VARIOUS SIZES!

CintoFlex fences are ideal for creating temporary or permanent containment fencing areas at almost any site. These fences have a multitude of uses, guaranteeing optimal visibility and allowing good airflow. This specially stretched, wide meshed fencing mimics the texture of cloth or welded wire, with knots at four corners of the squares. These mesh sizes are perfect to protect the perimeter of any property or construction site and to prevent and control of debris spread.

Ultramax Fencing is the strongest poly fencing available on today's market. This deer fence features rounded tensile strands that will resist the stretching and sagging that may occur, unlike netting fences sold elsewhere and in big box stores. **1400 lb. break strength**

**SOMETHING YOU DON'T SEE?
CALL US!!**

Bird Gard utilizes the innate power of the natural survival instincts of birds to effectively repel them. Digital recordings of distressed and alarmed birds, along with the sounds made by their natural predators are broadcast through high fidelity weather-resistant speakers. This triggers a primal fear and flee response. Pest birds relocate to where they can feed without feeling threatened.

These systems come with a customized, replaceable chip, each programmed with up to 8 different scare calls. If you're interested in a system, give us a call, we will forward you the list of the available chips

BIRD GARD PRO PLUS

- Protects up to 3 acres (1.2 hectare)

SPECIALTY TOOLS FOR SALE OR RENT

INSTALLATION TOOLS

SPINNING JENNY

Heavy duty wire dispenser. This helpful device greatly eases the dispensing of high-tensile wire. Coils are placed on the Spinning Jenny and drawn out as the top cradle revolves at a speed which can be adjusted with a tension or drag brake.

KNIPEX 8" MINI BOLT CUTTER

Heavy duty tool with notch for wire cutting

"4 in 1" FENCE TOOL

Wire cutter, crimper, wire gripper/ cable stripper and staple puller

4-SLOT WIRE CRIMPING TOOL

Tool for tightening a variety of different crimps

GRIPPLE 8MM CUTTER

Tool for cutting braided cable for Hops

STAPLE DRIVER

WIRE TIE TWISTING TOOL

WIRE BENDING TOOL

Adds tension curve in wire fence to eliminate sag

HIGH TENSILE WIRE CUTTER

Designed for cutting high tensile steel wire

8' STRETCHER BAR

Specially designed bars for installing metal deer fencing. Other sizes are available. Includes 9 wedge locks

STRETCHER BAR PULLER

SMOOTH WIRE PULLER

HARDWARE & FASTENERS

CRIMPS

2-3 short	12.5ga.	100pcs
2-3 long	12.5ga.	100pcs
3-4 short	10-11ga	50pcs
4-5 short	8-9ga.	50pcs

STAPLES 8 gauge Class III

#40 - 1 3/4" -2,120pcs Double Barb

#40 - 2" -1,600pcs Double Barb

QUICK VICE

Finishing connection for 12.5ga high tensile wire projects

QUICK SPLICE

Wire connection for 12.5ga high tensile wire projects

BRACE PINS for H Brace system

Long-10"
Short-5"

ON-LINE WINDER

EZ Daisy Tightener

Good Fences Make Good Neighbors

FARM FENCE SUPPLIES

Finger Lakes Trellis Supply carries a full line of agriculture fencing products and accessories!
FENCE INSULATORS

Black Ring Insulator -multi-purpose insulators that screw into your wood post, for high tensile wire projects- lag bolt style provides anchoring strength, for use with Poliwire or Polirope.

4" Fin Tube Insulator -provides line post for high tensile wire fence projects- fin design prevents insulator/wire from twisting after the insulator is stapled to the line post.

20" & 24" Wraparound Insulators -simply thread your high tensile or electric wire through the non-conductive polyethylene insulator and wraparound your wood or steel post, nylon insert protects insulator from being cut when the wire is tensioned.

Corner Donut Insulator -high-strength porcelain- used for corners, ends, dips and rises.

Ultimate End Strain Insulator -HD insulator made of fiberglass filled material-strong and durable, for HT wire

Horsehead Insulator -decorative fence insulator screws into wood post, which is perfect for big HT wire fencing projects -easily installed and look sharp- also works with Poliwire or Polirope.

DARE Rod Post Insulator - For round posts. Fits 1/4 to 9/16 diameter posts and 5/8 fiberglass T posts. Extends wire 1 from post. Installs without tools. Adjustable while current is "on. High density polyethylene with UV inhibitors.

50' & 100' Lead-Out Cable -for 12.5 gauge HT wire electrical fence connections. The lead-out cable can be used for directional burial situations.

3-4 Fence Taps (12.5g Smooth) used with 12.5 or 14 gauge or 14 gauge high tensile wire. Essential electric fence accessory.

Splitbolt Connector use to hook-up wires, jumpers and ground wires.

FENCE GROUNDING ACCESSORIES

Bronze "Acorn" Style Rod Clamp -used on grounding rods measuring up to 5/8" in diameter.

Hot Dipped Galvanized Ground Rod -zinc coated ground rods galvanized for protection against corrosion. The rods are 6 feet in length and 5/8 inch in diameter

FENCE ENERGIZERS

**several plug-in/battery/ solar options available. Ask us for more details!

FENCE POLYTAPES, POLY-WIRE & POLYBRAID

FenceGard Wide Tape (1.57" dia.) thick polyethylene with 13 strands of stainless steel wire

Polywire 6 - White (200m & 500m) blend of twine and stainless steel wire, UV-stabilized twisted Polywire boasts durability, strength, safety and conductivity- perfect portable fence material

Polywire 9 - White (400M) blend of twine and stainless steel wire- high quality, UV-stabilized twisted polywire that boasts durability, strength, safety and conductivity- perfect portable fence material

Polytape - White (200M) is a rugged 1/2" UV-stabilized polytape is made of durable 5 strands, designed with weave design which will withstand high winds.

9 Strand Polybraid (400m) built for durability, strength, safety and electrical conductivity. Braiding process allows conductors to overlap for continuous current with breaking strength of 300lbs.

FENCE HANDLES AND GATE KITS

Compression Gate Handle -black plastic or amber polycarbonate.

24" Spring Gate - The all-in-one gate kit, includes 1 Black Compression Gate Handle, 1 galvanized 24' spring, 1 wood post pinlock insulator, and 1 gate activator.

TENSION SPRING -heavy duty, indicates amount of tension, acts as shock absorber, maintains tension 10.75"

FENCE TESTER

PRUNERS, LOPPERS & SAWS

Felco pruning and cutting tools: a leader in quality, durability and life span.

FELCO PRUNERS

Felco 2- Classic model, easy, durable cutting adjustment/wire cutting notch/sap groove

Felco 4- Standard Model, riveted anvil blade. For occasional use or garden maintenance.

Felco 5- Elementary mdl w/steel handles

Felco 6- Light, compact model for all types of pruning. Tapered cutting head. Adapted for small hands.

Felco 7- High-Performance model for intensive pruning. Revolving handle spreads the cutting effort. For professional pruning.

Felco 8- Leading ergonomic model for effortless pruning. Angled cutting head

Felco 9- Leading ergonomic model for effortless pruning, specially designed for **left-handers**. Angled cutting head

Felco 10- Model identical to FELCO 7, but specially adapted to **left-handers**.

Felco 11- Model recommended for all types of pruning. Screwed-on anvil blade.

Felco 12- High performance, compact pruning shears, recommended for small hands

Felco 13- Multi-purpose use w/ extra long left handle for thick branches

Felco 31- Anvil Model. Beveled blade for easy penetration *while supplies last

Felco 160L- Shear for large hands

Felco 20- Pruning shear, ideal for pruning trees, vines, bushes and shrubs

Felco 800- Battery operated Pruner
 - increased cutting power for intensive work. Super durable precision formed aluminum body with Li-Io battery technology.
